A16. Please state the full name of {A2RDcalcDAS}.

If possible, please also state the location of {A2RDcalcDAS} and the department you work in.

The following section contains questions about the relevance, the use and the implementation of norms and standards, as well as other aspects of technical rules. A distinction is made between formal standards, technical rules or specifications, consortia standards, de-facto standards and company standards.

B1. How important are the following types of standards established on a National level for {A2RDcalcNOMAKK}?

[illegible]

The figure shows a horizontal Likert scale with seven points labeled -3 (very unimportant), -2, -1, 0, +1, +2, and +3 (very important). Below the scale are four rows of empty boxes for rating different standards:

- Formal standards for European Level
- Technical rules or specification for European Level
- Informal consortia standards for European Level
- De-facto standards for European Level

Figure 1 shows a horizontal Likert scale ranging from -3 (very unimportant) to +3 (very important). The scale has seven boxes for rating. Two items are listed:

- Formal standards for International Level: +1
- Technical rules and specifications for International Level: +2

Section C: Effects of the coronavirus pandemic on standardization

The coronavirus pandemic poses special challenges for the world of standardization. At the same time, standards, as part of the quality infrastructure, can potentially help to better manage the crisis. In this year's special section, the DNP investigates to what extent standardizing companies are affected by corona and how standards and certification offer support. Additional focus is put on the impact of the pandemic on the digitization of standardization and digitization in participating companies in general.

C1. Which of the following negative effects does the coronavirus pandemic have for {A2RDcalcNOMAKK} up until now?

Section D: Effects of the coronavirus pandemic on standardization

D1. Please indicate the level of digitalization and networking in {A2RDcalcNOMAKK}.

Digital Novice: Own digitalization successes achieved, but need for improvements in coordination and strategic alignment of the activities. No risk recording and compliance.

☐

Vertical Integrator: Product and service portfolio consistently assigned with digital functions along the vertical value chain (e.g. integrated software). Horizontal networking still capable of development.

☐

Horizontal Collaborator: Value chain and product service portfolio vertically as well as horizontally digitally networked. Standardized methods used to manage risk and compliance assured.

☐

Digital Champion: Operative and administrative processes are globally networked, often virtualized, optimized, and increasingly automated. Operative business focuses on core segments and product and service portfolio enlarged with new business models.

☐

None of these apply

☐

D2. How does the coronavirus pandemic influence the digitization in {A2RDcalcDAS}?
